For Att: Mr Logan Naidoo
The Head
VORTEXONLINE

Message of Congratulations and Endorsement

On behalf of the Umbele Wolwazi Education Trust (UWET) and K12Schools, I wish to congratulate your organisation on the brilliant Vortexonline educational management programme.

South Africa's world ranking in terms of education poses a serious challenge to our learners as part of the globally competitive labour market. Educators need to refocus on teaching so as to provide learners with cutting edge education. Critical management, logistical and administrative support as provided by VORTEXONLINE will allow educators the time, latitude and insightful management and control of learners so as to empower these learners to maximum potential. I therefore foresee VORTEXONLINE as providing the impetus to take South Africa forward educationally.

Once again, congratulations on the provision of a great product, allowing education to embrace technology in providing quality education.

Yours in educational and social upliftment

BP Singh
